Background History

A Brief History of MHDO: Myanmar Heart Development Organization is one of the registered local/national NGOs in Myanmar which has founded in June 6, 2006 and formally formed in December 2009 by eight volunteers.¹ This organization is based on love and peace for everyone in Myanmar community by empowering them to perform work effectively and efficiently as a good citizen. MHDO was initiated in 2006, with a very low profile and self-supporting and run by individual donation, eight founders fill up the gaps and establish to do an effective community development in remote areas where there were very far away to access support from other organizations.

As Myanmar stand at the dawn of the twenty-first century, Myanmar has faced various natural disasters such as Earthquake, Cyclone/Tropical Storm, Infestation, Tsunami, Landslides, Floods, Tornados, Drought and Flu. In 2004, Ayeyarwaddy division, started from Tsunami storm in Labutta Township and Pyinsalu sub-Township. In the Delta Region, MHDO's core members had experiences and lesson learns by implementing several post-tsunami rehabilitation projects covering the sectors of Water/Sanitation and infrastructure with self-contract and individual donation with a very low profile as a CBO. MHDO then concentrated its activities in Myaung Mya District and Pyinsalu Sub-Township in Labutta District. Again in 2008, Cyclone Nargis struck on Myanmar at that time MHDO's core members have several Cyclone Nargis related projects assisting with food distribution, primary healthcare, water/sanitation and hygiene activities, and shelter construction for cyclone victims. It gives the great experiences and lesson learns to do the community development work in every place, every tribe and religion, of every people in Myanmar.

After Cyclone Nargis, and its response, MHDO's dream seen by eight volunteers who shared the same feelings and thoughts took a step towards development and formed MHDO which become reality in December 2009.

Today, Myanmar's Heart Development organization is proudly standing and actively doing the community development with the support of donors and partners.

Motto

We are sharing love and peace to everyone

Vision Statement

MHDO is a trusted, leading, and professional non-profit organization strengthening communities' resilience through humanitarian and developmental aids.

Mission Statement

MHDO is committed to serve vulnerable communities to help them sustain themselves amidst the challenging situations in Myanmar. MHDO is champion to deliver meaningful, accountable, and quality services in a timely manner such as emergency response, ensure food security, strengthen community capacities through livelihoods assistances, creating job opportunities, and adaptive to changing situation and climate change effects in Myanmar

¹The eight volunteers or founders or the standing committee members of MHDO were: (1) DawKhinMyoThit (Dependent); KyawSoe Win (Industrial Businessman); Saw Teddy Din (Development Worker); Saw KyawAung (Trader); DawEmHtoo (Vocational Trainer); AungZaw Win (Agriculture Business); Saw ThihaSae (Trader); Saw AungKkhin (Construction material Business).

CORE VALUES

MHDO embraced the following core values portraying URALITE (jʊərəˈlaɪt), fibrous agent for the health of the country to successfully impact the stated vision and mission:

UNITY
RESPECT
ACCOUNTABILITY & TRANSPARENCY
LOVE
INTEGRITY
TRUST
EQUALITY

Identity Statement

Myanmar Heart Development Organization is a local non-governmental humanitarian organization founded by eight local volunteers.

Goals or Preferred Future

1. MHDO experiences harmonious relationships amongst its staff and with all appropriate organizations and partner communities
2. MHDO has competent staff at all levels to implement projects with professionalism, integrity and excellence
3. MHDO has a sound and effective management system
4. MHDO has effective, feasible programs to fulfill its mission
5. MHDO enjoys high confidence from a variety of donors and receives stable funding for its quality programs.
6. MHDO is adequately equipped with appropriate facilities and equipment to meet its expanding needs.

Operating Principles

1. MHDO's decisions and strategies are consistent with its mission and vision.
2. MHDO demonstrates respect for diversity, treating people with equality, regardless of race, ethnicity, gender, economic, political and religious differences.
3. MHDO is active in civil society, engaging in appropriate and empowering partnerships to identify, to facilitate and to affect durable solutions to human need.
4. Myanmar's Heart maintains a balance in allocation of resources allowing for the continued viability of both relief and development activities at all levels.
5. Myanmar's Heart is committed to technical excellence in all its activities.
6. MHDO conducts its operations and delivers its programs with environmental sensitivity.
7. MHDO documents and applies operational learning to enhance individual and organizational effectiveness and innovation.
8. Myanmar's Heart evaluates and redefined its policies through self- appraisal and assessment to improve its operation.

9. MHDO maintains a work environment and systems that enable staff to achieve professional and personal growth.
10. MHDO practices the highest principles of transparency and integrity, adheres to professional standards and requirements, and demonstrates fiscal and legal responsibility by implementing rigorous control and compliance systems.
11. MHDO enlarges its resource base to meet humanitarian needs in accordance with managerial, technical, and organizational capacities.
12. MHDO shares plans, information, resources, and learning within the partners, enhancing efficiency, effectiveness, and flexibility.
13. MHDO advocates for the basic rights of the people with whom it works, empowering them to speak for themselves.

Four Core Values

The following core values were analyzed, discussed and agreed. Most of the points were considered as universal values and others were considered understood by/as the organization of MHDO. MHDO abides the following core values as most prominent: -

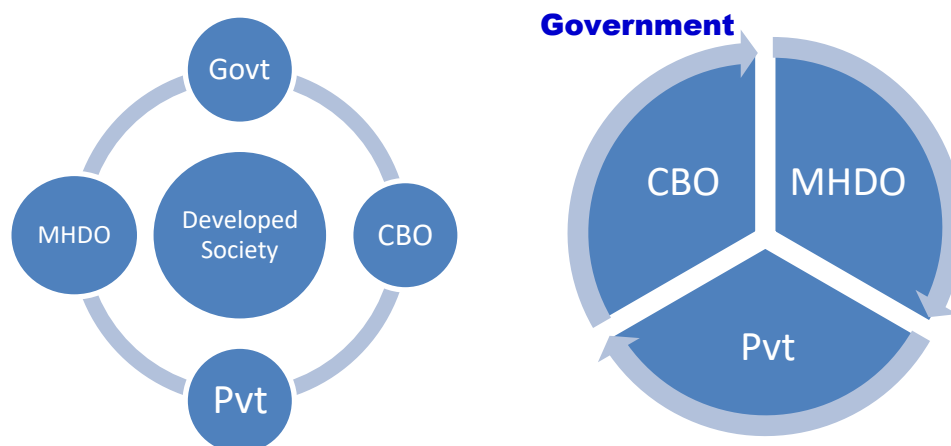

1. No discrimination of any ethnicity, religion or gender
2. Unity in diversity
3. Voluntary spirit
4. Flexible attitude

Main Sectors of work

Infrastructure Development, Personal and Community Hygiene, Water and Sanitation, Natural Resources Rehabilitation, Agro-base Food Security and Livelihood, Relief and recovery operation in emergencies, Educational Sponsorship, DRR Program, Sustainable Development, Shelter Construction.

Approach to Development

To ensure sustainability and durability of the implemented projects, MHDO has adopted the following approach as its strategic planning in all project implementation.

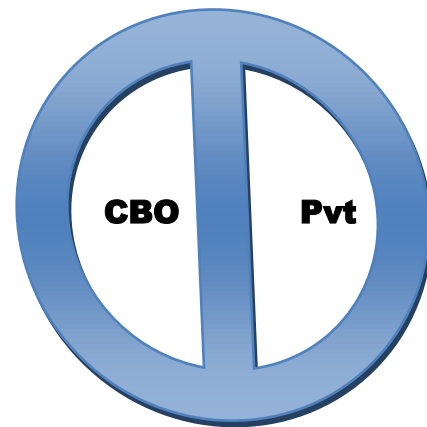

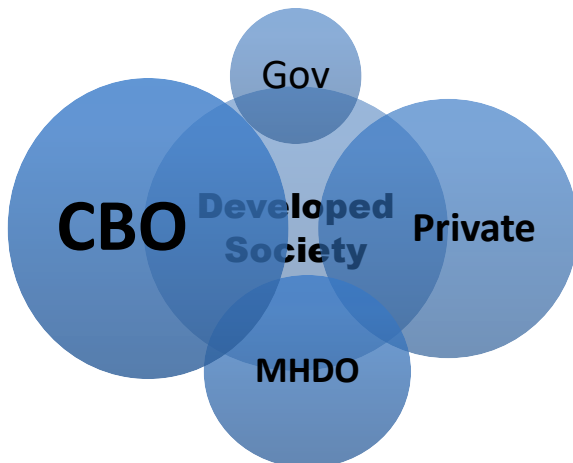

Phase One

Phase One: MHDO exist for the one and only reason that every Myanmar citizen live and enjoy love and peace in a developed society. MHDO realized and emphasized also that government, private sector (s), community based organization and Myanmar Heart Development Organization contributes to the center developed society in its approach to development and projects implementation.

Phase Two

Phase Two: MHDO then deal with the progression or a sequence of stages, tasks in a circular flow of CBO, Private sector (s) and MHDO in line with the national/government's sectorial development in order to attain a developed society as a whole.

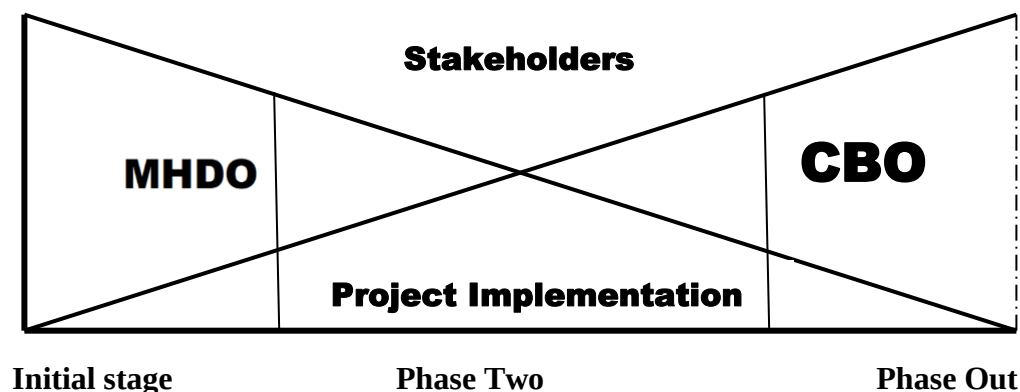

Phase Three

Phase Three: At this stage of development work, MHDO ensures the overlapping relationship among the four entities or bodies. This certainly indicates the need for collaboration and coordination in relation to the developed society. MHDO ensures that CBO is a part of the decision-making body in the project implementation and will get assistance for the need assessment for future or new project.

Phase Four

Phase Four: By the time MHDO need to phase out its activities in the local community. It ensures that CBO and Private sector (s) remain active and functioning for durability and sustainability of the project so that every village member in the community is living and enjoying love and peace in a developed society. Who knows one day our country is totally in a developed society!

Approach to Project Implementation

In the above diagram displayed the initiation of the MHDO by means of mobilization mainly focused on the active facilitation with the immediate community not undermining the other stakeholders. In the process of the project implementation stakeholders have much attention (most at the climax) to the activities and approach of the project. As the project is phasing out laid down by the project time frame durability and sustainability is ensured with full control and management of the project/development by the community based organization fully backed by the concerned line department or government.

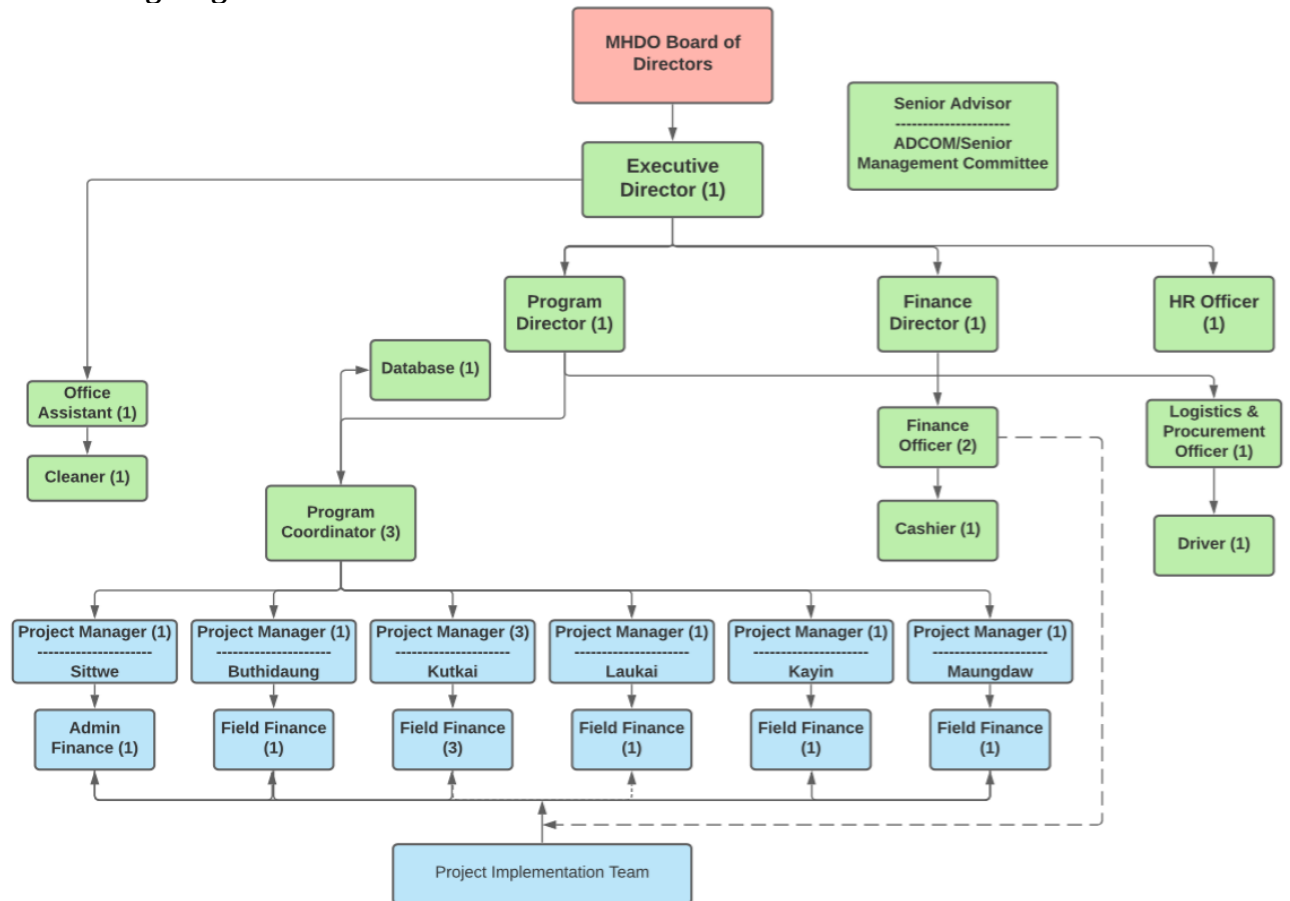

Program Description

Myanmar Heart Development Organization has five main program sectors. They are Livelihood, WASH, infrastructure, Environmental Development and non-formal education. MHDO has built on the premise that effective development initiatives are formed by identifying community needs and that this is the initial planning stage. MHDO's program focuses on the process of change that improves the quality of life of the community and utilizes their skills and available resources. To aid in the development process, MHDO serves as a catalyst, facilitating community recognition of its own abilities and available resources. In addition, the organization also functions as a vehicle to access resources outside the community.

MHDO Program Consists of: -

1. Livelihood program
 - a. Food Security
 - b. Agriculture
 - c. Livestock
 - d. Farmer Field School
 - e. Vocational Trainings
2. WASH program
 - a. Safe water (Deep tube wells, shallow tube wells, etc...)
 - b. Sanitation (Personal hygiene and environmental sanitation)
 - c. Constructions (mini-dams or weir, ponds, wells, PWSG, RWCT, toilet, etc...)
 - d. Basic Health Awareness
3. Infrastructure Development
 - a. Bridges, Road and jetty construction
 - b. Clinic and schools construction
 - c. Boat and shelter construction with DRR program
4. Environmental Development
 - a. Community woodlot
 - b. Community Agro-forestry
 - c. Nature forest development and/or Mangrove/ Rehabilitation
 - d. DRR Training
5. Non-formal Education
 - a. Assistance for students in monastery school
 - b. Child Friendly school program
 - c. Psycho-social support
 - d. Educational Support

MHDO Organogram

Livelihood Program

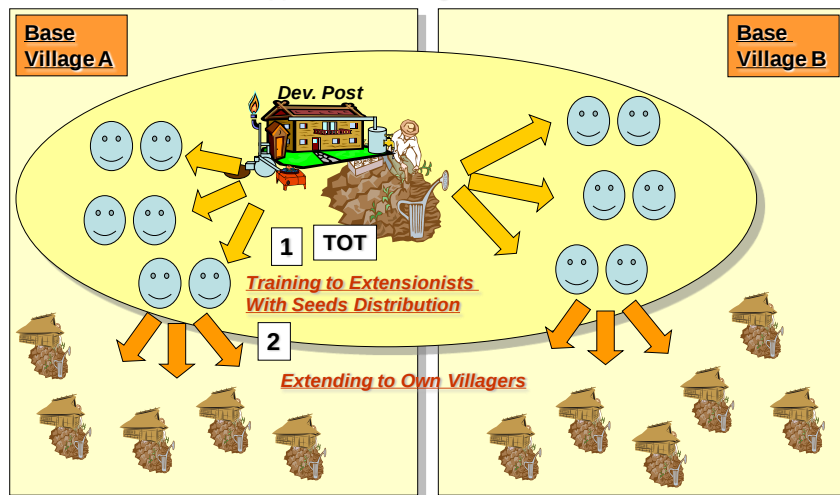

Livelihood program is fundamental in providing for stable and self-sustaining life in a community. Positive impact is directly seen in health status and quality of life. Subsectors of livelihood are food security, Infrastructure Development of Community and Livelihood Access. The following programs fall under the umbrella of Livelihood program.

- Food Security
- Agriculture
- Livestock
- Farmer Field School
- Vocational Trainings/Income Generation

1.1 Program Strategy for Livelihood Program

MHDO Livelihood Program Strategy 1st Phase

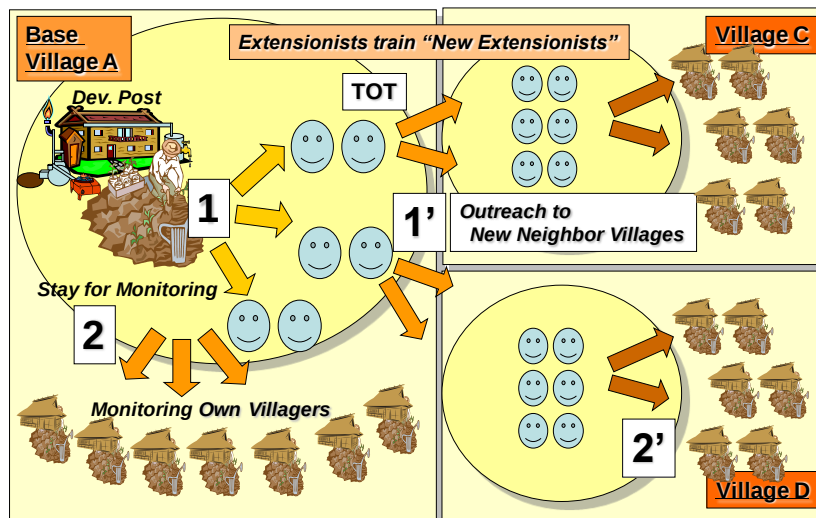

Approach: Training on Trainer---

TOT Expansion

--- Another TOT at Neighbor Villages---

2nd Phase

1.2 Main Activities include: -

- Model Village with FAITH gardening, Natural Chicken Farming and installation of Solar Energy/Renewable energy services
- Local seeds keeping and collecting practice, seeds exchange among farmers and training on how to keep and store the good local seeds.
- Farmland development, irrigation and installation of water supply system for watering
- Community Nursery establishment, making of JADAM natural pesticides and fertilizers

WASH Programs

WASH Programs focus on improving community health, Water, Sanitation and Hygiene promotion, Health awareness Communities who live in remote areas. WASH program interventions include:

- Safe Water (Deep tube wells, shallow tube wells, etc...)
- Sanitation (Personal hygiene and Environmental Sanitation)
- Construction (mini-dams or weir, ponds, wells, PWSG, RWCT, etc...)
- Basic Health Awareness Training

2.1 Main Activities include: -

- RWCT (5000 gal.) Construction
- Pond fencing and cleaning
- Hygiene Promotion and community Sanitation Training
- Household Latrines and School Latrines Construction
- Tube Wells Digging and pipe water supply
- Gravity flow and mini dam construction
- Water Stuff Management and Spring Source Management
- Well Construction/Water testing EC, chlorine etc.

2.2 HealthAwareness

MHDO concentrate on Personal Hygiene Training by demonstration, Mobile Clinic and Hygiene Kits distribution

2.3 Environmental Sanitation

Under this topic we mainly focused on Well Cleaning, Pond Cleaning and Solid Waste Management

2.4 MHDO Program Strategy for WASH Sector

Program strategy identifies how MHDO will address water quality impacts by working with state and local authority and other key stakeholders to upgrade the performance of decentralized systems through better management practices (design, installation, permitting, inspections, operation and maintenance, etc.), as well as to upgrade professional standards in the decentralized water system. The strategy also specifies how the recommended management practices will be integrated in the activities and approaches being applied in the various MHDO WASH programs, thereby helping to achieve mutual water quality objectives and public health protection goals. In order to achieve the WASH sector activities the following factors are

2.5.1 Local authorities Responsibilities: -

- Visit project site villages, Advise and support Project activities,
- Provide appropriate decision with suggestion on Project difficulties, problem and Issues through VDC,
- Support and provide guidance to VDC for sustainability of project activities,
- Support Community trainings through VDC,
- Support the maintenance of project activities,
- Provide guide lines for project Action planning,

2.5.2 Village Development Committee-VDC Responsibilities: -

- Arrange regular meeting with Community and give appropriate decision,
- Monitor regularly and support the necessarily in project activities,
- Advise Local practices to apply in project activities,
- Arrange, developed and supervise the Community Trainings, (hands on trainings, O&M, etc.)
- Support and arrange of forming the Maintenance Committee, (fund raising, work out duties and responsibilities)
- Support and arrange fund raising for maintenance program,
- Arrange participation of women Association (women group) in project activities,
- Submit monthly, quarterly and when necessary, report with comments and suggestion to Local Authorities

2.5.3 Water and Environmental Sanitation committee (Village WatSan Committee-VWC)

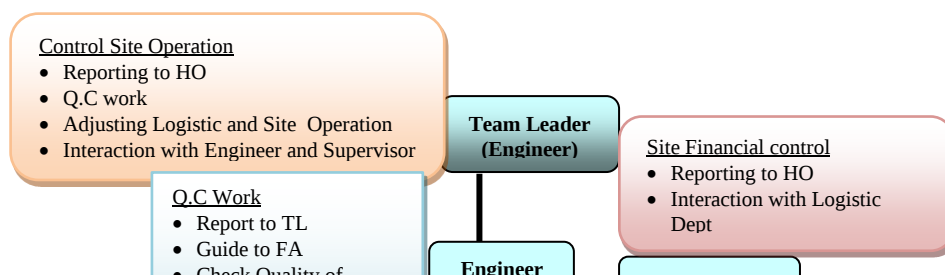

- Arrange regular meeting and participate, provide appropriate decision, support and suggestion,

- Formed Maintenance Committee, provide guide lines and arrange relevant trainings,
- Solve the problems in leading roles,
- Prepared proper record keeping,
- Take communication role between Project staffs, Volunteers, Women group and villagers,
- Take responsibilities in communication among villagers to achieve transparency and understanding,
- Submit monthly, quarterly and when necessary, report with comments and suggestion to VDC,
- Support in problem solving

2.5.4 Villagers, Volunteers, Women group, Youth group, Children group, etc.

- Attend regular meeting and participate in necessary follow up actions,
- Participate actively and support in project implementation (Survey, Calculation and necessarily of project plan)
- Work together and support Project staffs,
- Follow the guide lines provided by VWC,
- Organized women group, youth group and Children when Project provides the relevant trainings,
- Attend relevant trainings and transfer to neighbors

2.5.5MHDO Site Management Plan

Community Infrastructure Development

3.1 Construction

Bridge and Jetty Constructions for community economic and livelihood access especially focus on smooth and safe transportation. Others include: -

- Clinic Construction
- School Construction and school facilities.
- Multipurpose cyclone shelter (Dome) construction
- Steel rod bridge construction and small dam or sand dam construction.
- Medium and Small boat construction
- To provide Maintenance training for sustainable use,
- Household Shelter construction (DRR) and also provide low cost shelter construction with bamboo technology.

3.2 MHDO Program Strategy for Infrastructure Development Sector

Phase I

Phase III

Environmental Development

MHDO is committed to providing assistance in chronic/crisis situations, and it works towards resolution and long-term sustainability. Available resources will assist communities in achieving

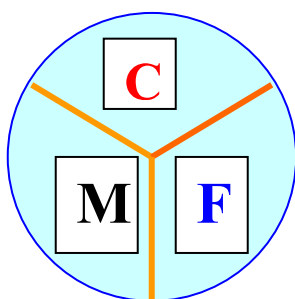

sustainable development. Environmental Development includes: - Natural Forest Development, Mangrove, community Agro-forestry and conduct DRR training. Appropriate Technology development for energy saving and climate change is emphasized in every stage of planning and implementation.

4. MHDO Program Strategy for Environmental Development Sector

Objective: -

- Coverage of landless & marginal famers.
- Assist in getting land utilization right from forest Department.
- To assist in prevention of natural disasters and environmental issues.
- To Maintain the Natural Forest.

Phase I

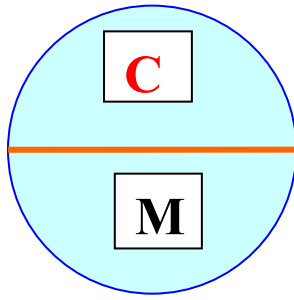

C	=	Community
M	=	MHDO
F	=	Forest Department

Work together with the community for getting the right of land utilization from the Forestry Department in the first year as follows: -

- Organize user (FD, MHDO)
- Site selection (All together)
- Application form (FD, MHDO)
- Mapping (FD)
- Land measurement (FD)
- Training (FD)
- Drawing Administration plan (FD)
- Nursery (All together)
- Land demarcation (Community)
- Plant (Community)
- Meeting (All together)
- Reporting (MHDO)

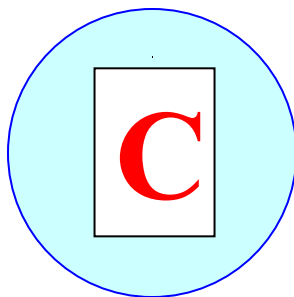

Phase II

Community and MHDO going together with Agriculture & their Livelihood in the land they are permitted to use in the following ways and means: -

- Agriculture training
- Plough
- Plant
- Plucking
- Regular review meeting
- Inspection of project site by FD.
- To promote the agro forestry system.

Phase III

Community alone will continue to utilize the wood lot or forest that was developed by the three bodies (MHDO, Forestry Department (Government) and Community as follows: -

1. They will continue with their Management plan.
2. They continue working on the sustainable Agriculture.
3. They will share lesson learn and successful information to other villages.
4. To promote their user household.
5. To provide their own small-scale business & small-scale industry based on their raw material received from their own forest.

Non-formal Education

The projects and program implemented under the label of 'non-formal education' are very diverse in scope including various kinds of educational work linked with development initiatives including agricultural extension and training program and health education. The present pattern, in which we have education at the beginning of our lives, then work in one field until an extended retirement period, is changing. Lifelong learning is becoming part of modern life. This is because rapid technological change and growth in information require ongoing learning. Given the importance of learning foundations, currently those who miss out on basic education suffer exclusion.

MHDO believe that ongoing learning throughout life enables people to take advantage of new opportunities that arise as society changes. MHDO therefore endeavors to provide opportunities for those who are unemployed to re-enter the workforce.

5. Activities include: -

- Mobile Clinic and Health Assistance for Students in Monastery Schools
- Child Friendly School Program
- Psycho-social Support
- Educational Support
